Welcome to DesertHawks.org!Â The Desert Hawks is an Airsoft team that was formed by Airsoft and Milsim enthusiasts who wanted to bring more to the sport and more to a team than any one of them could do alone and as such banded together to form the Desert Hawks team.Â The team theme for the Desert Hawks is built upon the Arizona native Harris Hawk.

This hawk is somewhat special in that it is one of few raptors that hunt as a pack or unit rather than solo and as such is aptly named the 'Air Wolf'. Â Our team motto of "Ex Unitate Vires" which is latin for "Unity is Strength", exemplifies this regal animal characteristic and we hope to bring that sense of unity and team work to everything we touch.

Â Pardon our dust!
